Summary

As a highly skilled web developer with 7 years of experience, I bring a deep understanding of Laravel and Vue.js, along with proficiency in Nuxt.js, to every project. My expertise includes creating dynamic and engaging user interfaces with Vue.js and implementing SSR projects with Nuxt.js to enhance performance and SEO. I am also proficient in MySQL and MongoDB databases and effectively utilize Laravel's robust infrastructure for web development projects, making me a valuable asset to any team.

Notable Projects:

Designed and implemented a high-performance web project for an entrepreneur utilizing Laravel.

Developing a custom content management system with Vue.js and Laravel.

Implementing a modern web application for an online store, leveraging Nuxt.js.

Other Skills:

Excellent problem-solving and analytical skills.

Strong communication and collaboration abilities.

Capable of working independently and as part of a team.

Adaptable to new technologies and challenges.

I am currently available for both freelance projects and full-time opportunities and am willing to relocate for the right position.

Experience

Lorditheme Startup

Senior Frontend Developer (Nuxt.js)

February 2021 - Present (3 years 5 months)

Designed and Implemented E-Commerce Platform

Successfully designed and implemented a robust e-commerce platform for web products, specializing in the sale of web templates and scripts. This platform has enhanced the company's market presence and streamlined online sales processes.

Executed Advanced SEO Strategies

Deployed sophisticated SEO strategies that significantly improved the website's search engine rankings, driving organic traffic and increasing visibility.

Engineered Progressive Web App (PWA)

Developed a Progressive Web App (PWA) that reduced load times by 50% and boosted user engagement by 40% through seamless offline functionality. This innovation led to a better user experience and higher customer retention rates.

Leveraged Pinia.js for State Management

Utilized Pinia.js for efficient state management, which contributed to improved project organization and development quality. This resulted in more maintainable and scalable code.

Collaborated with Cross-Functional Teams

Worked closely with designers, backend developers, and product managers to deliver high-quality products on time. Ensured alignment on project goals and delivered features that met user needs.

dehestaan

Full-stack web Developer

January 2024 - June 2024 (6 months)

As the lead web developer at Dehestaan, I was responsible for designing and developing a comprehensive e-commerce platform focused on local agricultural products. I utilized modern technologies such as HTML, CSS, and JavaScript, ensuring the site was optimized for both user experience and search engine visibility. I implemented a content management system that allowed for easy content updates by the team and worked closely with designers to create an engaging and user-friendly interface. Additionally, I conducted thorough testing and debugging to ensure the site's performance and security were top-notch.

Lordinet Startup

Founder

December 2019 - November 2023 (4 years)

Full-stack Developer

I have successfully designed and implemented an e-learning platform using Laravel and Vue.js technologies. The project aimed to provide an online education platform with a user-friendly interface and robust admin panel.

SEO and Optimization:

- Implemented Progressive Web App (PWA) to enhance SEO-friendliness and structured data.
- Significantly improved site speed by 10% through advanced image optimization and caching mechanisms.

The project yielded significant results, such as:

- Developed a user-friendly interface and robust admin panel for efficient management of the online store.
- Increased user engagement by 30% within the first month.
- Improved search engine rankings, resulting in a 20% increase in organic traffic.
- Positive feedback from users regarding the intuitive design and easy navigation.
- Implemented the advanced video streaming system, significantly enhancing user experience, website speed, and overall performance was improved.
- Integrated online payment methods to facilitate quick and secure transactions.

Gam Academy

Teacher

2017 - 2021 (4 years)

- 5+ years of teaching experience
 - implemented HTML, CSS, and VueJs courses
 - proposed and implemented teaching methods
 - Successfully integrated HTML , CSS , VueJs into the institute's curriculum
 - had over 100 Students
 - positive responses on intuitive teaching methods and impactful courses
- website: gamacademy.ir
